DOVE MOUNTAIN

WILD BURRO

Hole-by-Hole Description

Hole 1	Par 4	Tournament 461	Blue 454	Copper 417	Yellow 383	Green 311
---------------	--------------	-----------------------	-----------------	-------------------	-------------------	------------------

Straightaway off the tee, the bunker complex on the right side of the landing area is in play. The approach must negotiate a pot bunker in front of the green, which slopes sharply in several directions.

Hole 2	Par 5	Tournament 583	Blue 541	Copper 492	Yellow 446	Green 440
---------------	--------------	-----------------------	-----------------	-------------------	-------------------	------------------

A dogleg left begins with a carry over the wash to a roomy landing area to the right of a pair of corner bunkers. The fairway narrows leading to the green, which has a big bunker front-left and drops off back to front.

Hole 3	Par 4	Tournament 444	Blue 437	Copper 386	Yellow 359	Green 236
---------------	--------------	-----------------------	-----------------	-------------------	-------------------	------------------

A dogleg right starts uphill to a wide plateau, with a right-side bunker in range. From the crest, the approach is downhill to a desert-style "island green," surrounded by a wide wash and a large, front-left bunker.

Hole 4	Par 3	Tournament 200	Blue 188	Copper 180	Yellow 165	Green 122
---------------	--------------	-----------------------	-----------------	-------------------	-------------------	------------------

Slightly downhill over a strip of desert habitat, there is a generous grassy area sort and left of the green, creating numerous options. A large, deep bunker is wrapped along the right side of the green.

Hole 5	Par 4	Tournament 428	Blue 419	Copper 387	Yellow 359	Green 300
---------------	--------------	-----------------------	-----------------	-------------------	-------------------	------------------

The straight-out fairway climbs gradually toward a sprawling bunker on the right. The crest may block the sightline to the green, where a bunker is short-right and the rise on the left can provide a friendly carom.

Hole 6	Par 5	Tournament 586	Blue 541	Copper 526	Yellow 513	Green 386
---------------	--------------	-----------------------	-----------------	-------------------	-------------------	------------------

Water stretches out from the tee along the left of a narrow landing area, with a pot bunker in play on the right. A wide wash runs in front of a small green, affecting the decision to go for it, or lay up.

Hole 7	Par 4	Tournament 452	Blue 417	Copper 398	Yellow 358	Green 323
---------------	--------------	-----------------------	-----------------	-------------------	-------------------	------------------

A gentle dogleg right, the fairway tilts to right, toward a wash area that runs along that side from tee to green. A bunker fronts the left side of the green, but there is safety long and right, providing numerous options.

Hole 8	Par 3	Tournament 253	Blue 221	Copper 161	Yellow 149	Green 124
---------------	--------------	-----------------------	-----------------	-------------------	-------------------	------------------

Slightly elevated tees look across a wash to a grassy area short of bunkers that pinch each side of a narrow opening to the green. A ridge creates movement from the center to the right.

Hole 9	Par 4	Tournament 490	Blue 414	Copper 402	Yellow 390	Green 354
---------------	--------------	-----------------------	-----------------	-------------------	-------------------	------------------

Starting straight uphill, two bunkers are in range on the left. The fairway crests, then drops into a swale, rising again to an elevated green. Two bunkers sit short left, with another right of the green.

Totals	Par 36	Tournament 3897	Blue 3632	Copper 3349	Yellow 3122	Green 2596
---------------	---------------	------------------------	------------------	--------------------	--------------------	-------------------
